

WR66F

BICYCLE RACKS

OVERVIEW

The WR66F wall mounted bicycle rack is a smart and space efficient solution for sites looking to maximise bicycle storage by utilising available wall space. By moving bicycles off the floor, the WR66F helps free up valuable ground area while maintaining an organised and accessible parking environment.

Designed with protection in mind, the WR66F features durable protective rubber that safeguards both the rack and the bicycle from accidental damage during loading and unloading. This added layer of protection makes it ideal for high use environments where bikes are frequently stored and removed.

Simple to install and built for long term durability, the WR66F is well suited to a wide range of residential, commercial, and end of trip facilities. Its practical design supports secure, tidy, and efficient bicycle storage, making it an excellent choice where space optimisation and bike protection are key considerations.

Choose Securabike for your bicycle parking needs, and experience the quality and reliability that comes from our extensive expertise in the industry.
