

# BRV6

## BICYCLE RACKS

### OVERVIEW

Maximise your available space with the BRV6 Space Saver single sided rack, designed to deliver efficient and practical vertical bicycle storage. By storing bikes upright, this system significantly increases capacity compared to traditional horizontal racks, making it ideal for areas where space is limited.

The flexible design allows bike hangers to be positioned at customised intervals, ensuring optimal spacing between bicycles to suit different environments and user needs. Post mounted, this rack provides a simple and durable solution for organised and accessible bike parking.

Perfect for commercial, residential and public spaces, the Space Saver single sided rack combines durability with smart design to help you get the most out of every square metre.

Choose SecuraBike for your bicycle parking needs and experience the quality and reliability that comes from our extensive expertise in the industry.
