BICYCLE RACKS

OVERVIEW

Leda's E-Bike Charging Rack combines secure bicycle parking with integrated charging capability, providing a safe, convenient solution for modern e-bike users. Engineered for durability and ease of use, the system offers dedicated charging points, efficient space utilisation, and reliable power access for a wide range of e-bike models. It's ideal for workplaces, residential buildings, transport hubs, education facilities, and public spaces looking to upgrade their bicycle amenities with a future-ready charging solution.

Designed with both users and facility managers in mind, the rack incorporates robust materials, clean cable management, and safety focused electrical components. Its modular layout allows for easy installation and flexible configuration to suit different site sizes and layouts.

Choose Securabike for your bicycle parking needs, and experience the quality and reliability that comes from our extensive expertise in the industry.
