OVERVIEW

Securabike has established itself as a leading manufacturer of bicycle parking products, offering a wide range of options to cater to the parking and security needs of cyclists. With over 20 years of experience in the industry, we take pride in being the preferred choice for bicycle racks.

Bicycle racks are the most popular and cost-effective solution for parking and securing bicycles. Cyclists widely favour them due to their affordability and convenience. As you specify or purchase a Securabike bicycle rack, you can trust that you are selecting the best product available in the market.

One of the standout features of our Delta CBR6B bicycle rack is the larger 500mm spacings between each rack. This generous spacing not only facilitates easy parking but also provides ample room for securely locking your bike. With Securabike, you can have peace of mind knowing that your bike is safely stored and protected.

Choose Securabike for your bicycle parking needs, and experience the quality and reliability that comes from our extensive expertise in the industry
