

CBR2SCTM

COMPACT RACK

OVERVIEW

Leda's SecuraBike CBR2SCTM is a compact and robust bicycle rack specifically designed for vandal-prone environments. Fully welded and hot dip galvanised, it offers exceptional durability and a long service life with minimal maintenance. The unit is compliant with AS2890.3 and provides an economical and space-efficient solution for secure bicycle parking.

The CBR2SCTM is ideal for medium-term parking across various environments where security and durability are essential. Common applications include residential apartments, recreation centres, secondary schools, TAFE colleges, universities, workplaces, and retail shopping precincts. Its compact footprint and rugged construction make it particularly well suited to locations with high traffic or exposure to potential damage.

Choose SecuraBike for your bicycle parking needs and experience the quality and reliability that comes from our extensive expertise in the industry. Please note also available in stainless steel.
