OVERVIEW

Leda's Securabike CBR2B Bike Rack is a practical and durable bicycle parking solution designed for commercial, educational, and public environments. Built for long-term reliability and resistance to outdoor conditions, the rack provides secure parking for up to two bicycles. Its space-efficient alternating high and low wheel design reduces handlebar clashes, making it ideal for sites with limited space.

With straightforward installation and low maintenance requirements, the CBR2B is suited to both indoor and outdoor use, offering a reliable and flexible solution to promote cycling and support sustainable transport initiatives.

Choose Securabike for your bicycle parking needs, and experience the quality and reliability that comes from our extensive expertise in the industry.
