

## Full Height Turnstile

STFB1120

### OVERVIEW

Leda's Knockdown Full Height Bar Turnstile is a heavy-duty security solution designed for industrial, commercial, sporting, and mining applications, providing reliable and trouble-free access control. This ultra-strong turnstile effectively prevents unauthorised entry and ensures tight control of entrances and exits. Ideal for managing staff movement and tracking people flow, it helps maintain accurate entry and exit records. The turnstile guarantees superior quality and longevity and is designed for convenience, being shipped knockdown on a double pallet to save on freight costs and allow for quick and easy assembly.

### KEY FEATURES AND APPLICATIONS

- **Full Height Security:** Provides robust access control, preventing unauthorised entry and ensuring secure movement management.
