Slimline Bollard

SSP200FA

OVERVIEW

Leda Security’s Slimline Stainless Steel Bollards deliver a high-quality, durable solution for access control and perimeter protection. Manufactured from stainless steel, these bollards feature a sleek, modern design that seamlessly integrates into urban and commercial environments. Available in fixed in-ground, surface mounted, and removable options, they combine strength with style, making them ideal for enhancing security, defining spaces, and adding a polished look to any setting.

KEY FEATURES AND APPLICATIONS

- Modern Design:**
Slimline profile offers minimal visual impact while maintaining functionality and security.
- High Quality Stainless Steel Construction:**
Ensures durability, corrosion resistance, and a sleek, polished appearance.
- Customisable Finishes & Compliance:**
Available in various finishes, including corrosion-resistant options, and meets stringent safety and security standards.
- Low Maintenance & Durability:**
Designed for long-lasting performance with minimal upkeep needed solution.
- Wide Range of Applications:**
Shopping centers, office complexes, car parks, public buildings, parks, streetscapes and high-end developments.
