The Custodian

CTD150FP

OVERVIEW

Leda Security Products offers cost-effective impact rated bollards designed for reliable protection in various environments. A crash tested design and engineered to withstand specific impacts, these bollards come with a detailed footing design for easy installation, ensuring dependable performance. Australian made Impact rated PAS170. 2500kg at 32kph.

KEY FEATURES AND APPLICATIONS

Pedestrian Footpaths and Drop-off Areas: Ideal for preventing unintended acceleration incidents, enhancing safety in pedestrian zones and pickup/drop-off areas.

The Custodian complements Leda's range of locally made PAS68 bollards and is a low cost solution suitable for deployment in a wide range of applications including retail outlets, child care centres, pickup zones, service stations and alfresco dining areas.

Please note: Should not be specified as hostile vehicle mitigation
