

BPIR Declaration

TRU-SPRINT™ PACER RAPID ROLL DOOR

DESIGNATED BUILDING PRODUCT

Class 2

DECLARATION

ARA Group NZ Limited, trading as Metalbilt has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

PRODUCT SYSTEM

TRU-SPRINT™ Pacer Rapid Roll Door

System identifier:
TRU-SPRINT™ Pacer Rapid Roll Door

DESCRIPTION

The TRU-SPRINT™ Pacer Rapid Roll Door is a commercial / industrial rapid roll door product manufactured from high-quality, heavy-duty PVC offering excellent resistance to wear and tear, and reaching speeds of up to 1.4m/s, making it suitable for areas with high traffic flow.

These high-speed doors are equipped with a range of safety features including radar technology, safety beams and vision panels.

A wide range of sizing is available up to a maximum width of 5.5 metres and maximum height of 6 metres.

TRU-SPRINT™ can be supplied in a galvanised or powder coated finish.

TRU-SPRINT™ can be operated manually by hand chain and with a motorised system.

TRU-SPRINT™ are not fire rated.

BPIR Declaration

SCOPE OF USE

TRU-SPRINT™ are suitable for internal and external use in commercial and industrial buildings to provide light vehicle or pedestrian access. Suited to areas with high traffic flow.

Vision panels are a feature of this door, so therefore could be used to provide some natural light into a building.

These doors have the option to be insulated.

CONDITIONS OF USE

TRU-SPRINT™ must be installed by a competent and experienced commercial door installer, as per the installation instructions.

Operating instructions must be followed for correct use.

Openings must be designed with minimum requirements given in the technical drawings.

These doors can be engineered to suit a wind zone in accordance with NZS 3604.

Not to be used where fire ratings are a requirement.
