50,000+
projects completed

5,000+
gates installed

100,000+
bicycles parked

250,000+
bollards installed

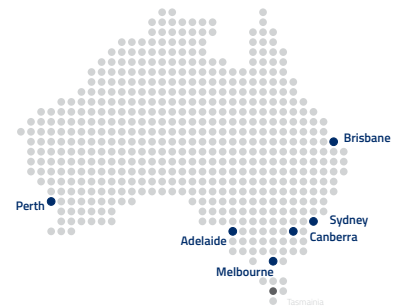

THE LEDA DIFFERENCE

- High manufacturing standards for durability and low maintenance
- Cost efficient end-to-end process for customers
- Design innovation and contemporary styling
- High vandal resistance
- Unparalleled installation expertise
- Extensive technical resources and advice included
- Independently-tested, crash-rated barriers

ACROSS AUSTRALIA

Leda sales are based in Sydney, Canberra, Melbourne, Brisbane, Perth and Adelaide.

Certified Distributors also service Tasmania, Northern Queensland and New Zealand.

ABOUT LEDA

Leda commenced operations in 1994 and has its main manufacturing plant located at Tuggerah NSW, about 90 kilometres north of Sydney. In early 2012 Leda opened its own factory and offices in Ningbo China, to service sales in that country as well as catering for North American and European markets.

Leda's vehicle barriers and road blockers offer varying degrees of security and impact protection, ranging from low to very high security and impact resistance.

They can be installed as single independent units in tandem or in a combination with other products such as gates to achieve a vehicle checkpoint.

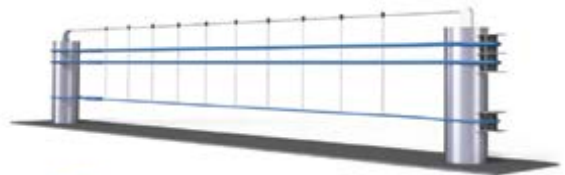

The range includes above ground, surface mount, shallow mount or with conventional concrete footings.

Product Range

- Vehicle Barriers
- Road Blockers
- Retractable Gates
- Tyre Spikes
- Pre-cast Concrete Barriers

Retractable Fencing & Gates

High Security Fencing

Full-height & Half-height Turnstiles

Pedestrian Gates & Security Doors

Leda regards fencing, and the integration of other perimeter security equipment like pedestrian gates and turnstiles, as an important component of any perimeter security installation.

Fencing, gates and turnstiles are manufactured from a broad range of materials suitable for use in varying applications across different security levels.

Product Range

- Perimeter Fencing
- High Security Fencing
- Retractable Fencing & Gates
- Full-height Turnstiles
- Half-height Turnstiles
- Access Swing Gates
- Security Doors

A range of locking options designed to allow integration with all common access control systems is available for all gates and turnstiles.
